Program Budget Decision Unit: 062 Air Force Reserve

I. Description of Operations Financed:

The funds requested for the Operation and Maintenance, Air Force Reserve appropriation are required to maintain and train units for immediate mobilization, and to provide administrative support which encompasses the Office of Air Force Reserve (Air Staff), Headquarters Air Force Reserve (Operational Headquarters), the Numbered Air Forces and the Air Reserve Personnel Center. The FY 1996/1997 request provides for the operation and training of 63/62 flying units with accompanying 143,816/142,783 flying hours, 279 mission support units, Air Force Reserve flying installations, and the flying and mission training of 73,969/73,160 Selected Reserve personnel. Activities supported include aircraft operations, base and depot level aircraft maintenance, mission support, and supply and maintenance for Air Force Reserve units. The civilian end strength for FY 1996/FY 1997 is 15,435/15,010 which reflects a decrease of 1,056/1,544 below the approved FY 1995 President's Budget.

The \$1,485.9 million budget request for FY 1996 supports a price increase of +\$18.7 million, a program decrease of -\$15.2 million and a functional transfer of +\$10.9M. These changes result from an increase in depot level repairable funding of +\$4.1M as a result of a DoD readiness initiative, a civilian end-strength reduction directed by the National Performance Review of -\$23.9M, contract conversion dollars of +\$2.6M, one-half year impact of the activation of two associate flying squadrons at McConnell AFB, KS of +\$9.9M and March ARB, CA support of +\$17.6M. Force structure adjustments reflect conversions from A-10s to OA-10s, F-16s to KC-135s and C-141s, KC-10 associate aircraft to KC-135s and associate C-141s to associate C-17s which equate to a net loss of -\$12.5M. The FY 1997 request of \$1,509.0 supports price growth of +\$29.7M, continued personnel reductions in FY 1997 to comply with the National Performance Review of -\$17.8M, contract conversions of +\$3.3M, as well as, the second-half year support of the associate flying squadrons at McConnell AFB, KS of \$12.2M and March ARB, CA support of +\$6.8M. FY 1997 also includes the impact of force structure conversions that began in FY 1996. These total force structure changes equate to a change of -22 PAA, -1,280 flying hours and -704 end strength in FY 1996 and -12 PAA, -1,033 flying hours and -450 end strength in FY 1997.

The Chief of Staff of the Air Force directed the elimination of the 2400th Reserve Readiness and Mobility Squadron (RRMS) which transferred positions performing management headquarters to the headquarters management program element of +\$4.8M. This change moved end strength and funding from Air Operations to Service-wide Activities. In addition, there has been an increase in the calculated estimate for civilian disability compensation for FY 1996 based on actual billings received from the Department of Labor covering the period 1 July 1993 to 30 June 1994 of +\$.3M.	\$ +5,097

a. Air Operations. Reflects F-16 reductions to meet 20 FWE and the conversion from A-10s to OA-10s, F-16s to KC-135s. KC-10 associate aircraft to KC-135s, and associate C-141s to associate C-17s. See aircraft operations for detailed explanations. Decreases are primarily the result of civilian reductions required to comply with the National Performance Review Report direction and the movement of funding from BOS to RPS to service-wide activities. Also reflects the one-time impact of the congressional add of \$10M for C-130s and \$2M for WC-130s, as well as the impact of a one-time requirement for Nuclear Biological Chemical Warfare gear in FY 1995 to replace items that have exceeded their shelf life.	\$ -107,658

See aircraft operations for detailed explanations. Also reflects the full year impact of the two associate flying squadron and deployable maintenance at McConnell AFB, KS of \$12.2M. Beginning FY 1997 these squadrons will include thirty-six (36) crews. This also includes the second increment of funding for contracted services in order to offset civilian reductions of \$3.3M and includes an increase of \$6.8M annualization for March ARB, CA.	\$ +32,703	
b. Service-wide Activities. Reflects the FY 1997 impact of the elimination of the 2400th Reserve Readiness and Mobilization Squadron which transferred positions performing management headquarters work to the Headquarters Management program element from Air Operations. **6. FY 1995 Current Estimate****7. Functional Transfer****8. Price Growth****9. Program Increases**

a. KC-135 - Air Refueling. Increase is primarily a result of eight (8) PAA converting from KC-10 associate aircraft at Seymour-Johnson first quarter of FY 1996. In addition F-16s at Carswell AFB are converting to KC-135 beginning with two (2) first quarter four (4) the next and finally eight (8) in the fourth quarter FY 1996. Also, one KC-135 squadron moves from McClellan AFB to Beale AFB, CA. This equates to a flying hour increase of 3,631 in FY 1996. This increase is partially offset by the reduction of 3 PAA, 675 flying hours and 21 Technician positions in order to conform to the 8 PAA squadron standard. Also, temporarily carried in this program element is one-half year impact of the FY 1996 POM initiative which creates two associate squadrons at McConnell AFB, KS. This initiative equates to an associate flying hour increase of 4,020 in FY 1996 and an increase in funding to support the 12 PAA the AFR associates with.

**D. Reconciliation: Increases and Decreases:**

	(\$000)
b. C-17 Associate. Increase is primarily a result of the annualization of from eleven (11) associate aircraft second quarter to seventeen (17) associate aircraft last FY 1995. FY 1996 begins with twenty (20) first quarter to a final position of twenty-two (22) fourth quarter FY 1996. All changes impact Charleston AFB, SC and AMC training is impacted with an increase of 800 flying hours.	\$ +6,713
c. C-141 Equipped. Increase is primarily a result of the annualization of the unit conversion from F-16s to C-141s at Wright-Patterson AFB, OH. The unit will start FY 1995 with twelve (12) PAA and end with two -8 PAA squadrons. In FY 1996 the unit is at full strength. This increase is partially offset by a crew ratio reduction at Andrews AFB, MD which results in reduction of 600 flying hours and 15 ARTS.	\$ + 3,486
d. B-52 equipped and C-5 Equipped. Increase primarily a result of realigning DPDM funding.	\$ + 7,569
10. Program Decreases:	\$ -50,750
a. A-10 Tactical Fighters. Decrease is primarily a result of the decrease from twelve (12) PAA beginning FY 1996 to six (6) second quarter, down to zero (0) third quarter and out at Whiteman AFB, MO. This equates to a decrease of 1,910 flying hours.	\$ - 9,133
b. F-16 Tactical Fighter. Decrease is primarily a result of fifteen (15) PAA converting from F-16s to KC-135Rs at NAS For Worth JRB, TX and inactivation of 15 PAA F-16 unit at NAS New Orleans, LA. Flying hours are impacted by a decrease of 6,587.	\$ -19,954
c. C-141 Associate. Decrease is primarily a result of changes at Travis AFB, CA and McGuire AFB, NJ. Travis AFB, CA changes reflect a decrease from sixteen (16) associate aircraft to fifteen (15) associate aircraft last quarter FY 1995, to eleven (11) first quarter FY 1996, seven (7) associate aircraft second quarter and to a final position of three (3). McGuire AFB requirements reflect the annualization of the decrease from fourteen (14) associate aircraft first quarter FY 1995, to twelve (12) second quarter, six (6) third quarter to a final position of no C-141s in FY 1995. This decrease also includes the impact of the directed 1% civilian Technician reduction. AMC training flying hours reduced by 968 hours.	\$ - 3,745

d. C-130 Tactical Airlift. Primarily the result of the modernization of the C-130Es to C-130H model aircraft at Peterson AFB, CO and the one-time congressional increase in FY 1995. The C-130 addback lacks ART/RPA funding in FY 1995.	\$ -13,006
e. WC-130 Reconnaissance. This decrease represents a temporary loss of 1 PAA between FY 1995 and FY 1996. Every year Congress temporarily adds 1 PAA and supplemental OSD funding is subsequently sourced to support it.	\$ -2,365
f. KC-10 Associate. Decrease primarily a result of the conversion of six (6) PAA from KC-10 associate aircraft first quarter FY 1996 to eight (8) KC-135R unit equipped, at Seymour-Johnson. This equates to a decrease in flying hours of 1,745.	\$ -2,547

12. Price Growth	\$ +18,180
13. Program Increases	\$ +22,807
a. KC-135 Equipped. Increase primarily a result of the full year impact of one associate flying squadron activating FY 1996 and half-year impact for the second squadron activating FY 1997, and deployable MX UTC at McConnell AFB, KS. Beginning FY 1997 these squadrons will include 36 crews (117 ARTs and 8 Title 5s). This equates to an increase of associate flying hours of 4,020 for FY 1996 and 8,040 for FY 1997 and an increase of twelve (12) associate aircraft with eighteen associate aircrews. Associate program temporarily carried in this PE until OSD approves new program element (PEC 51422). Also, eight KC-135 PAA squadron moves from McClellan AFB to Beale AFB, CA.	\$ +10,480
b. OA-10 Tactical Air. Increase is the result of the annualization of from six (6) PAA first quarter to twelve (12) second quarter, with a final position of eighteen (18) FY 96/4 at Whiteman AFB, MO. This equates to an increase in flying hours of 2,170.	\$ +3,408
c. C-17 Associate. Increase is primarily the result of the annualization of from eight (8) associate aircraft in first quarter FY 1996 to ten (10) last quarter increasing up to twelve (12) PAA third quarter FY 1997 and beyond. This equates to a flying hour increase of 319.	\$ +8,919

## BUDGET ACTIVITY: OPERATING FORCES

0-1 Category: Air Operations

Subactivity Group: Base Support

I. Narrative Description: This program provides for costs in support of base operations, base communications and real property maintenance for the Air Force Reserve. Included are activities such as utilities, communications, custodial services, snow removal, fire protection, food service and supply services at thirteen Air Force Reserve bases.

### II. Force Structure Summary:

The funds provide base operations and base communications for Reserve bases, including buildings, roads and grounds, and airfields as required for the training of Reservists. They also provide for utilities, communications and other base services such as command-wide ADPE support, indicia mail, security, personnel and finance support, transportation, and supply operations. Increases in this are due to the transferring of two bases from active duty to the Reserves (Homestead and March) and the closure of Richards-Gebaur. This also provides for costs associated with the operation, protection and maintenance of real property facilities, including buildings, roads, grounds, and airfields required for the training of Air Force Reserve personnel supporting a level of combat readiness that enables them to augment the active force and to be capable of conducting independent operations in accordance with wartime taskings.

## BUDGET ACTIVITY: ADMINISTRATION & SERVICE-WIDE ACTIVITIES

### 0-1 Category: Service-wide Activities

I. Description of Operations Financed: This area encompasses the Office of Air Force Reserve (Air Staff), Headquarters Air Force Reserve (Operational Headquarters), the Reserve Numbered Air Forces (Mission Comptrollers), and the Air Reserve Personnel Center (ARPC). The Office of Air Force Reserve is headed by the Chief of Air Force Reserve who is the Air Force chief of staff's principal adviser for all Air Force Reserve matters. The Chief of Air Force Reserve is responsible for establishing policy and initiating planning, programming and budgeting in consonance with Air Force and Department of Defense policies and statutes. Headquarters Air Force Reserve, a field operating agency, Robins Air Force Base, GA, administers and supervises the Reserve unit program, provides logistic support, reviews and manages unit training and ensures combat readiness. It provides operational, logistics, comptroller, administrative and personnel support for all Air Force Reserve units. Headquarters Air Force Reserve exercises command and control through three numbered air forces located in Georgia, Texas, and California. These numbered air forces, commanded by Reserve general officers, provide mid-level management for Air Force Reserve units and work on a daily basis with their counterparts at active Air Force numbered air forces -- those which they would augment if mobilized. Headquarters Air Reserve Personnel Center is a field operating agency located in Denver, CO. The center performs specified Headquarters U.S. Air Force, major air command and base-level personnel actions to include career development, assignment, classification, promotion, discharge and retirement. It administers and manages individual reserve programs for Ready Reservists and maintains master personnel records for all members of the Air National Guard and Air Force Reserve who are not on extended active duty. The center also mobilizes individual reservists and certain categories of Air Force retiree's in the event of a national emergency.
